Prestwood KS4 curriculum

Qualifications at KS4

Staff at Chiltern Way Academy strive to ensure that every student achieves the best possible outcomes at the end of Key stage 4. This is dependent on each Individual's profile of need. For example, some students will take a range of GCSEs, some may take only one, and many students will not be able to access GCSE courses. Along side this we run a number of vocational based qualifications that support students developing skills to achieve employment and independence.

We ensure that students and families are involved in the decision making process, with each student receiving a bespoke offer based on their future aspirations, as well as their education, health and care plan and respective outcomes.

* Grouped across three learning blocks, each given two hours teaching time
